Product datasheet:

Calprotectin

Overview

Product name: Calprotectin
Alternative names: Protein S100, calgranulin, leucocyte L1 complex, migration inhibitory factor-related protein, MRP8/14, S100 calcium-binding protein
Uniprot: Accession numbers P05109, P06702
Description: Heterotetramer containing two 8 kDa and two 14 kDa subunits
Source material: Human neutrophils
Purity: >90% by SDS-polyacrylamide electrophoresis
Purification: purified using conventional chromatography procedures
Clinical applications: Faecal calprotectin determination has been shown to be useful in the diagnosis and management of inflammatory bowel disease
