

Product datasheet:

Calprotectin

Overview

Product name:	Calprotectin
Alternative names:	Protein S100, calgranulin, leucocyte L1 complex, migration inhibitory factor-related protein, MRP8/14, S100 calcium-binding protein
Uniprot:	Accession numbers P05109, P06702
Description:	Heterotetramer containing two 8 kDa and two 14 kDa subunits
Source material:	Human neutrophils
Purity:	>90% by SDS-polyacrylamide electrophoresis
Purification:	purified using conventional chromatography procedures
Clinical applications:	Faecal calprotectin determination has been shown to be useful in the diagnosis and management of inflammatory bowel disease
